**Bio & Policy Statement from
A Nominee for Associate Member Governor
Board of Governors 2024-2025**

CHAN Nap Kee Joseph

Affiliation: Oriental Patron Financial Group

I am a relatively new member of 2023 but I feel that I have been with the club for ages as many of my friends in business and in the media are FCC members and they have been inviting me regularly to signature lunches at the club which I have always been enjoying.

As a new kid on the block I joined the club's Charity Committee and its first meeting on November 8th 2023 really impressed me as the members' enthusiasm and meaningful suggestions of how to help the underprivileged of the Hong Kong community drove me to get committed to the club that triggered me to participate more actively in the club's activities firstly with an objective to at least procure a longer lease term so that we can match correspondingly our longer term planning. As a local Hong Konger I believe I could be of help when dealing with the landlord in this case the Government Property Agency. Also I believe a new member would always provide new ideas to a historic club like FCC.

I have been in the banking and financial services industry for close to 40 years and co founded Oriental Patron in 1993 in which I am still actively involved in macro economics analysis and building strategies. I am a team player and can work with anyone from different industry and ethnicity given the nature of my business and I do write regularly letters to newspapers such as SCMP on topics that I believe would be of interest to the Hong Kong community. I hope I would be elected to assist the club's rejuvenation.
